The following is a list of white marriages taken from the marriage books in the Pike County Court House. The ones in bold print represent the license that were returned and not executed. The ones in italics are license only and the date is the date the license was issued. This does not mean that the marriage positively did not take place, it means that the license was not returned by the official who performed the marriage and in some cases it was returned and signed by the official but not dated as to when the actual marriage took place. In some cases I am sure there was not a marriage ceremony but in others it is possible that the minister, justice of the peace, or possibly circuit riding preacher did not return the papers to the court house. I did not place book numbers in this listing because all of the books do not have a number on them. It is better to go by the dates on the book jacket to find the correct book. All of the books have the years they represent on the jacket. The writing in some of these books is hard to read and in some cases the person misspelled names. Also in some cases I am sure that I made errors in deciphering what was written and also in typing. If you are in doubt about a name I would suggest that you check the original book. You will have the date and the page number to find what you need. I am in hopes that this work will be of use to anyone researching their ancestors in Pike County, Alabama.
